## *OCVH RECOMMENDS PET INSURANCE*

### *What Is Pet Insurance?*

*Pet insurance is designed to help cover the cost of treatment for unexpected illnesses, accidents, and injuries.*

Pet insurance helps you pay your veterinary bills, so you'll always be able to give your pet the best care possible. Accidents and illnesses will happen to your pet over his or her lifetime, and it's not uncommon for a major incident to cost thousands of dollars. Pet insurance will cover most of these unexpected costs so you can rest assured knowing that you've made the best choices for your pet.

### *Which Pet Insurance Plans Does OCVH Recommend?*

Our doctors have reviewed a large number of pet health insurance plans and have evaluated the feedback from clients who have submitted claims. For 2013, our recommended pet insurance plans include Trupanion, Petplan and Embrace.

Trupanion and Petplan are tailored to those clients who are primarily looking to cover their pet in cases of emergency, major medical and surgical problems. The Embrace plan also provides various levels of well care coverage, such as annual exam, vaccinations, etc. Please look at the following websites for specific information about premium costs, reimbursement formulas and restrictions.
